overview

Being in the vegetation control and landscaping industry since 1992, we became aware of the global change in mindset of living **greener, safer and more natural**.

With fertilizer being the most important component, it became obvious that this would be the perfect place for nature's preparation.

All-Season-Chicken Manure Pellets are composted chicken manure in pellet form. It is 100% natural, making it safe to use on all plants, trees and crops.

All-Season-Chicken Manure Pellets are nature's preparation for perfect living.

Product Information

All-Season-Chicken Manure Pellets features and benefits:

- Composted chicken manure in pellet form
- 100% natural
- Environmentally friendly
- Increases water retention
- Releases nutrients slowly for more effective absorption
- Neutral PH
- Is composted and heat treated resulting in a weedless pellet with virtually no harmful bacteria
- Is in pellet form and allows for uniform application; easy to handle and store
- Minimal chance of burning plants or leaching
- Encourages microbial and earthworm activity
- Cost effective

N:P:K
4:1:2

Pellet composition

N – Nitrogen for healthy leaf growth
P – Phosphorus for healthy root and shoot growth
K – Potassium for best flowering & fruiting

Product Packaging

Available in the following sizes:

- 4kg
- 9kg
- 18kg
- 24kg
- 35kg
- 40kg Bulk bags

Directions for use

All-Season-Chicken Manure Pellets can be used as top or base dressing.

Top dressing

Apply All-Season-Chicken Manure Pellets to soil surface around plants to stimulate growth. This is usually carried out in spring at the start of the growing season. Take care to avoid leaf contact. It can also be applied on lawns during growing season or in winter. Make sure you water well after each application.

Base dressing

Incorporate All-Season-Chicken Manure Pellets into soil or potting compost before sowing or planting.

The following table is a guide. A complete soil analysis is recommended for specialised crops. Please refer to our product label before use.

Area of application	Recommended application
Lawns & Turf	100g – 150g/m ²
Vegetables	1.5 – 2 t/ha
Macadamias	As per soil analysis
Crops	1,5 – 2 t/ha (or as per soil analysis)

Safety Precautions

- Use safety glasses to prevent eye irritation
- Wear a dust mask when applying All-Season-Chicken Manure Pellets
- Avoid applying in windy conditions
- Keep out of reach of children

Putting mother nature in a better mood.
